WHOLESALE PRICE LIST

Fall 1941

September 18, 1941

TERMS AND CONDITIONS OF SALE

The prices named in this list cancel all previous lists. Being based on current market conditions, they are subject to change without notice and to depletion of stock. All sales are made with the understanding that we shall not be liable in event of crop loss or of damage from other causes over which we have no control.

APPLICATION OF PRICES:—The prices quoted in this list are trade prices and apply on wholesale quantities only. All orders should call for ten or multiples of ten of a variety and size. While we prefer not to break bunches of ten, in general five will be furnished at the rate per 10; 30 or more at the rate per 100, 250 or more at the rate per 1000 where such a rate is published.

Small Quantities:—Less than five of a variety and size is not wholesale, but, for the convenience of our wholesale customers, such orders will be filled at a premium of 5c per plant over the rate per ten with the exception of Evergreens and Deciduous Trees. On Deciduous Trees the premium will be 10% of the rate per ten but not less than 10c per plant.

Special Marking:—All stock selected and labeled by the customer at the Nursery will be subject to an additional charge in accordance with its value—listed prices will not necessarily govern.

TERMS OF PAYMENT:—2% discount for payment within 10 days of invoice date, due net first of second month following date of invoice. These terms are offered only where satisfactory credit arrangements have been made. All accounts not paid promptly on the due date draw interest at 6% from that date.

Cash Before Shipment:—A 3% discount plus quantity discounts will be allowed where cash in full to cover the cost of stock and packing is received before shipment, except that no discount will be allowed on orders amounting to less than \$5.00. Our experience with defaults on small balances necessitates all such balances being forwarded C. O. D. Be certain that you send enough money to cover the packing charges and avoid the comparatively heavy C. O. D. charges. Any overpayments will be refunded with the invoice.

C. O. D. Shipments:—Orders for C. O. D. shipment should be accompanied by cash for one third of the amount of the order to insure acceptance.

CLAIMS:—Claims, for any reason must be made in writing promptly upon receipt of the stock. We will gladly correct any errors, but we cannot entertain any claims that are not made within ten days after receipt of the stock or are made after the stock has once been accepted.

GRADES:—Our stock is all young, thrifty, and well grown, and is carefully dug and handled. All grades conform to the Standard Grades of the American Association of Nurserymen.

PACKING:—The prices in this list do not include packing. All orders for forwarding by freight or express, except car-load lots, are carefully packed in boxes or bales for which a charge is made sufficient to remunerate for cost of materials and time. No charge is made for loading in bulk in cars or on trucks, but all trucks should carry sufficient tarpaulins to properly cover the stock.

BOXING CHARGES:—Charges are made as low as possible for well made boxes, paper lined:

	12 feet	10 feet	8 feet	6 feet
30x30 inches	\$4.75	\$4.25	\$3.75	\$3.25
24x30 inches	4.25	3.75	3.25	2.75
24x24 inches	4.00	3.50	3.00	2.50
18x24 inches		3.00	2.65	2.25
18x18 inches		2.75	2.35	2.00
12x12 inches		2.00	1.65	1.35

Bales 35c and 50c to \$4.00 each depending on size.

TERMS AND CONDITIONS OF SALE — Continued

NON-WARRANTY AND LIABILITY:—We give no warranty, express or implied, as to the growth or productiveness of the Nursery Stock that we sell and we cannot be responsible in any way for results in transplanting. We exercise the greatest care to keep our varieties pure and true to name and hold ourselves in readiness to replace at any time, on proper proof, any Nursery Stock that may prove otherwise or to refund the amount paid, but it is mutually agreed that we shall at no time be liable for any amount greater than that originally paid for the Nursery Stock in question.

DIRECTIONS FOR SHIPPING:—In ordering, please give definite shipping instructions, especially advising as to whether we should ship by freight, express, or truck line. Where full instructions are not given, we ship as we think best serves your interests, but in no case do we assume responsibility for the stock after it has left our hands. The stock becomes the property of the purchaser when turned over to the transportation company, and the risk and cost of transportation belong to the customer.

NOTICE TO ILLINOIS CUSTOMERS

The regulations under the Illinois Retailers' Occupation Tax Law covering the exemption of sales for resale from the 2% Sales Tax require that in order to establish proof that purchases are for that purpose, we must keep on file Certificates of Purchase for Resale on all purchases made by Illinois customers on which we claim exemption from Sales Tax. Illinois customers who have not filed such a certificate with us are therefore requested to accompany their orders with a proper certificate showing their registration number. We must of necessity charge the 2% Sales Tax on the invoices of all customers who do not furnish us with such certificates.

TO THE TRADE

LOCATION AND SHIPPING FACILITIES:—Princeton is located in north-central Illinois 104 miles west of Chicago on the main line of the Burlington Railroad and on three concrete highways—U. S.-Illinois 6 and 34 and Illinois 26. Our office, packing sheds, and home farm are located just south of the city limits on South Main Street (Tiskilwa Road).

TRUCK DELIVERIES:—Several responsible freight truck lines operate through Princeton, with proper connections for transfers to many points, particularly in Illinois and Iowa. Rates in most instances are the same as local freight rates.

Where the size of the shipment warrants, we are in a position to arrange for direct deliveries in bulk by truck at reasonable rates. Where customers wish to send their own trucks for bulk loading, it is advisable to give us at least three or four days advance notice so that we may have the material ready when the truck arrives and avoid delay. Care should be taken that all trucks carry sufficient tarpaulins to properly cover the stock, as we accept no responsibility whatever for the condition of the stock after it leaves our hands.

FRUITS

Caliper—It is intended that the caliper shall govern in the grading of fruit trees. Heights given are approximate only and represent the average height of most varieties, but some slow growing varieties may fall short of the heights specified.

APPLES

Our Apples have made up unusually heavy in caliper this year and we can furnish more of the heavier grades than usual. All of the trees offered are buds, none are grafts.

		Per 10	Per 100
First Class, 11/16 to 7/8 inch, 4½ feet and up (\$200.00 per 1000)		\$ 2.60	\$ 22.50

Wilder, 2 year No. 1	.85	6.00

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

GOOSEBERRIES

	Per 10	Per 100
Downing, 2 year No. 1	\$ 1.30	\$10.00

RASPBERRIES

	Per 100	Per 1000
Chief, early long season red, No. 1 suckers	\$ 2.00	\$18.00
Latham, best main crop red, No. 1 suckers	2.00	18.00

GARDEN ROOTS

	Per 10	Per 100	Per 1000
Asparagus, Mary Washington, rust resistant, 1 year No. 1 (300 or more at \$5.00 per 1000)	\$ 1.00	\$ 6.00	
Horseradish, Russian, strong crowns	.75	4.00	30.00
Horseradish, Russian, strong cuttings		1.50	10.00
Rhubarb, Myatt's Linnaeus, whole roots, 1½ inch and up	.55	3.50	30.00
Rhubarb, Myatt's Linnaeus, whole roots, 1 to 1½ inch	.45	2.40	20.00
Rhubarb, Myatt's Linnaeus, whole roots, 5/8 to 1 inch	.35	1.90	16.00
Rhubarb, Flare, whole roots, 1½ inch and up	.65	4.00	35.00
Rhubarb, Flare, whole roots, 1 to 1½ inch	.55	3.00	25.00
Rhubarb, Flare, whole roots, 5/8 to 1 inch	.45	2.40	20.00

Flare is a comparatively new variety, erect and compact in growth. The stalks are an attractive red throughout their length and the flesh is unusually crisp and tender.

DECIDUOUS TREES

The Shade and Ornamental Trees which we offer are young, thrifty, well rooted specimens which have been carefully trimmed and shaped. We dig fresh for each order.

All calipers are taken six inches above the crown.

ACER dasycarpum — Soft or Silver Maple 60-80 ft.

A large tree of rapid growth, by far the sturdiest of our rapid growing trees.

	Per 10	Per 100
5 to 6 feet	2.50	22.00
6 to 8 feet	3.50	32.00
8 to 10 feet, 1 to 1¼ inch caliper	6.00	55.00
1¼ to 1½ inch caliper	7.50	65.00
1½ to 1¾ inch caliper	9.00	80.00
1¾ to 2 inch caliper	11.00	100.00
2 to 2½ inch caliper	13.50	120.00
2½ to 3 inch caliper	19.00	175.00
3 to 3½ inch caliper	25.00	

dasycarpum var. Skinner's Cut-leaved Maple 60-80 ft.

Very similar to the Wier's Cut-leaved Maple with more finely cut leaves.

	Per 10	Per 100
5 to 6 feet	4.50	
6 to 8 feet	6.00	50.00
8 to 10 feet, 1 to 1¼ inch caliper	8.00	75.00
1¼ to 1½ inch caliper	9.50	85.00
1½ to 1¾ inch caliper	12.50	

platanoides — Norway Maple 50-60 ft.

One of the best of the Maples. A sturdy tree with a broad rounded head, excellent for street and park planting.

	Per 10	Per 100
6 to 8 feet	8.50	75.00
8 to 10 feet, 1 to 1¼ inch caliper	11.00	100.00

1½ to 1¾ inch caliper	16.50	150.00
2 to 2½ inch caliper	20.00	
4 to 4½ inch caliper	45.00	
4½ to 5 inch caliper	55.00	

DECIDUOUS TREES — CONTINUED

ACER platanoides Schwedleri — Schwedler Purple-leaved Maple

A type of the Norway Maple. The leaves are bright purplish-red when they first come out in the Spring, changing to a very dark green in the Summer.

		Per 10	Per 100
One Year Whips, 6 to 7 feet.....	(Spring delivery only)	11.00	95.00
One Year Whips, 7 to 8 feet.....	(Spring delivery only)	12.00	110.00

The one year whips offered above are Oregon grown from transplanted Norway Maple seedlings, grown one year, budded and cut back to the ground. Straight whips, the best material obtainable for lining out to grow on.

Transplanted, 6 to 8 feet, lightly branched		16.00
Transplanted, 8 to 10 feet, lightly branched		19.00

saccharum — Hard or Sugar Maple — 70-90 ft.

The native Sugar or Rock Maple, a tall sturdy tree with an upright oval head.

5 to 6 feet		6.50	60.00
6 to 8 feet		10.00	90.00
8 to 10 feet, 1 to 1½ inch caliper		14.00	125.00
1½ to 2½ inch caliper		15.50	140.00
1½ to 3½ inch caliper		19.00	175.00
2½ to 4 inch caliper		22.50	

rubrum — Red or Scarlet Maple 50-60 ft.

An attractive round-headed tree with light gray bark and good foliage that turns a bright scarlet in the Fall.

4 to 5 feet		10.00
5 to 6 feet		12.50
6 to 8 feet		16.00
8 to 10 feet, 1 to 1½ inch caliper		21.00
1½ to 2½ inch caliper		25.00

AESCULUS glabra — Ohio Buckeye 30-40 ft.

A small native round-headed tree of the Horse-chestnut family.

3 to 4 feet		5.00
4 to 5 feet		7.50
5 to 6 feet		10.00

Ash — see *Fraxinus*.

BETULA alba — European White Birch — 30-40 ft.

A handsome graceful tree with white bark.

4 to 5 feet		4.50	35.00
5 to 6 feet		5.00	45.00
6 to 8 feet		7.00	65.00
8 to 10 feet, 1 to 1½ inch caliper		10.00	85.00
1½ to 2½ inch caliper		11.50	100.00
1½ to 3½ inch caliper		15.00	135.00
2½ to 4 inch caliper		18.00	165.00

alba laciniata pendula — Cut-leaved Weeping Birch 30-40 ft.

5 to 6 feet, wrapped in moss		10.00	90.00
5 to 6 feet, B&B		16.00	
6 to 8 feet, wrapped in moss		14.00	
6 to 8 feet, B&B		20.00	
8 to 10 feet, wrapped in moss		20.00	
8 to 10 feet, B&B		30.00	
1½ to 2½ inch, wrapped in moss		23.50	
1½ to 2½ inch, B&B		33.50	
1½ to 3½ inch caliper, wrapped in moss		28.50	
1½ to 3½ inch caliper, B&B		40.00	
1½ to 4 inch caliper, wrapped in moss		32.50	
1½ to 4 inch caliper, B&B		45.00	

Birch — see *Betula*.

CATALPA Bungei — Umbrella Catalpa

Double-budded trees, with full even heads.

2 year heads, 5 to 6 foot stems		7.00	60.00
2 year heads, 4½ to 5 foot stems		5.50	45.00

DECIDUOUS TREES — CONTINUED

CELTIS occidentalis — Hackberry 60-70 ft.

A valuable tough-wooded native shade tree with a straight trunk and broadly rounded head.

	Per 10	Per 100
5 to 6 feet	4.50	35.00
6 to 8 feet	6.00	50.00
8 to 10 feet, 1 to 1½ inch caliper	9.00	80.00
1½ to 2 inch caliper	12.50	110.00

CERCIS canadensis — Red-Bud or Judas Tree 20-25 ft.

A good hardy strain grown from local seed. *Cercis canadensis* is one of the numerous plants which will not prove hardy when moved into this section of the country from the South. Here at Princeton we are on the northern limits of the native Red-Bud, and these plants will prove much hardier than those grown from southern seed. Grown in bush form.

2 to 3 feet	2.10	18.00
3 to 4 feet	2.80	25.00
4 to 5 feet	4.00	35.00
5 to 6 feet	5.00	45.00
6 to 8 feet	7.50	65.00
8 to 10 feet	10.00	

Crabs, Flowering—see *Malus*.

CRATAEGUS coccinea — Thicket Hawthorn 18-20 ft.

One of the most decorative of the native Hawthorns, forming a broad flat to rounded head.

2 to 3 feet	3.00	25.00
2 to 3 feet, B&B	6.00	55.00
3 to 4 feet	4.00	35.00
3 to 4 feet, B&B	8.00	70.00
4 to 5 feet	7.00	60.00
4 to 5 feet, B&B	12.50	110.00
5 to 6 feet	10.00	90.00
5 to 6 feet, B&B	16.50	150.00
6 to 8 feet	12.50	110.00
6 to 8 feet, B&B	20.00	175.00

crusgalli — Cockspur Thorn 15-18 ft.

A very distinct Hawthorne, with stiff wide-spreading branches and dark shiny green leaves that turn orange and scarlet in the Fall.

18 to 24 inches	2.50	20.00
18 to 24 inches, B&B	5.00	45.00
2 to 3 feet	4.00	30.00

3 to 4 feet	5.00	42.50
3 to 4 feet, B&B	8.50	75.00
4 to 5 feet	7.50	65.00
4 to 5 feet, B&B	12.00	110.00
5 to 6 feet	10.00	90.00
5 to 6 feet, B&B	16.50	150.00
6 to 8 feet	12.50	110.00
6 to 8 feet, B&B	20.00	175.00

Elaeagnus angustifolia — see under Shrubs on page 17.

Elm—see *Ulmus*.

Flowering Crabs — see under *Malus* on pages 9 to 11.

FRAXINUS americana — American White Ash 70-80 ft.

A tall tree with an upright oval head, much used for street and park planting.

5 to 6 feet	2.60	22.00
6 to 8 feet	4.00	35.00
8 to 10 feet	6.00	55.00
1½ to 1½ inch caliper	8.00	70.00
1½ to 1¾ inch caliper	10.00	90.00
1¾ to 2 inch caliper	11.00	100.00
2 to 2½ inch caliper	15.00	135.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

1 1/2 to 2 inch caliper, twice transplanted	9.00	80.00
2 to 2 1/2 inch caliper, twice transplanted	12.00	110.00
2 1/2 to 3 inch caliper, twice transplanted	15.00	135.00

Kentucky Coffeetree — see *Gymnocladus*.Linden — see *Tilia*.

MAGNOLIA soulangeana — Saucer or Chinese Hybrid Magnolia

The most decorative and the most popular of the hybrid Magnolias, producing a wealth of very large rose-colored bloom just before the leaves in the Spring. The plants offered were grown from layers and are on their own roots. They should not be compared with plants grafted on the tender *Magnolia grandiflora* roots, which are cheaper but not hardy.

(All own-root plants, no grafts)

		Each	\$	
2 to 3 feet, B&B	3.00		27.50
3 to 4 feet, B&B	4.00		37.50
4 to 5 feet, B&B	5.25		50.00
5 to 6 feet, B&B	6.50		62.50

stellata (*Magnolia haleana*) — Star Magnolia 8-10 ft.

The hardiest of the Spring-flowering Magnolias. A much-branched wide-spreading large shrub bearing a profusion of large white fragrant blooms before the leaves in the Spring. Earliest of the Magnolias to bloom. Blooms profusely when quite small and the plants that we have are well budded.

(All own-root plants, no grafts)

		Each	\$	
2 to 2 1/2 feet, B&B	4.00		
2 1/2 to 3 feet, B&B	4.75		45.00

3 to 3 1/2 feet, B&B Each 5.50

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

MALUS-Flowering Crabs

Small trees producing a profusion of flowers in the Spring—one of the most desirable and most decorative classes of our ornamental flowering trees. All are small trees, very free-flowering, producing masses of very showy flowers early in the Spring, followed in the Fall by decorative fruits that often persist on the trees well into the Winter. They are perfectly hardy, grow well in any good soil, and are very satisfactory either as specimen plants or in mass plantings.

MALUS *ioensis plena* — Bechtel Double-flowering Crab 15-18 ft.

This is probably the best known of all of the many Flowering Crabs. It forms a small upright bushy headed tree which is covered in May with large and very double fragrant pink flowers that bear a striking resemblance to small roses. The latest in blooming period of all of the Flowering Crabs.

	Per 10	Per 100
18 to 24 inches	2.10	18.00
2 to 3 feet	2.60	22.50
3 to 4 feet	3.30	30.00
4 to 5 feet	5.00	45.00

MALUS *sargentii* — Sargent's Crab 5-6 ft.

A low-growing bush form Crab, with rigid wide-spreading horizontal branches; when mature it is usually broader than high. One of the most decorative of the Flowering Crabs and very floriferous. Flowers cup-shaped, pure white, about an inch across. The first of the Crabs to bloom in the Spring.

	Per 10	Per 100
18 to 24 inches	2.30	20.00
2 to 3 feet	2.80	25.00
3 to 4 feet	3.60	32.50

MALUS - Flowering Crabs - Special Varieties

In addition to the varieties of Flowering Crabs which we are propating in quantity, we also offer very limited quantities of a number of additional varieties, many of which are of considerable interest. Descriptions of these varieties will be sent to interested parties on request. The rate per 10 will be allowed on any assort-ment of ten plants or more from this list.

Malus purpurea — 5/6 ft.

MALUS - Flowering Crabs — Descriptive List

MALUS adstringens 25-30 ft.

An upright tree of strong growth and shapely habit; very floriferous and very showy in bloom. The flowers are very large, very dark red in bud, opening to a deep rose-pink.

arnoldiana — Arnold Crab 16-18 ft.

A fine hybrid closely resembling Malus floribunda, but with larger flowers of soft pink. Very floriferous and one of the most handsome and shapely of the Flowering Crabs.

atrosanguina — Carmine Crab 12-16 ft.

A spreading shrubby tree resembling Malus floribunda in general appearance, but with flowers of a deep rose-carmine that does not fade to white. A very heavy bloomer and a tree of striking appearance.

baccata — Siberian Crab 18-20 ft.

A small round-headed tree, earliest of the Crabs to bloom. The flowers are very large and handsome, pinkish white fading to pure white, and are followed in the Fall by cherry-like red or orange fruits.

baccata — Gibbs Golden Gage 18-20 ft.

A type of Malus baccata differing chiefly in the size and shape of the very decorative fruits, which are of medium size, waxy, five-sided, and a translucent yellow.

baccata pruniformis 18-20 ft.

Another Malus baccata type with typical flowers and attractive five-sided red or yellow fruits.

brevis 12-16 ft.

Closely related to Malus floribunda, but a lower denser grower. Very free flowering and attractive with large nearly white flowers.

coronaria — Wild Sweet Crab—15-20 ft.

Very showy blush-pink flowers, the most showy of the native Flowering Crabs.

floribunda — Japanese Flowering Crab 15-18 ft.

Probably the best known of the Oriental Flowering Crabs, a handsome variety and a very free bloomer. The bloom buds are rose or rose-red, opening into a mass of rose-pink blooms that gradually fade to white.

MALUS — Flowering Crabs — Descriptive List — Continued

MALUS hopa — Hopa Crab 20-25 ft.

A very attractive variety of strong upright growth, probably a variety of *Malus adstringens*. It bears a profusion of very large double flowers of an unfading rose-red, followed by large edible fruits that are very distinctly red fleshed.

ioensis palmeri — Palmer Crab 15-18 ft.

A regional variety of the native Prairie Crab, coming from the Missouri area. A small spiny tree of compact growth, an improvement over the native Prairie Crab. Flowers large, rosy-pink fading to rosy-white.

magdeburgensis 14-16 ft.

A *Malus spectabilis* hybrid with striking semi-double rose-pink flowers borne in dense clusters. Resembles *Malus scheideckeri* in growth, but is a more robust grower.

prunefolia rinki — Ringo Crab 15-18 ft.

A strong growing variety with wide-spreading branches and large flower trusses. Delicate pink in bud, followed by almost white flowers. The very decorative red or yellow fruit is produced very abundantly and persists on the tree well into the Winter.

purpurea aldenhamensis — Aldenham Crab 16-18 ft.

Another very showy hybrid with bronze-purple foliage. Very similar to the Eley Crab, but the bloom is larger, semi-double to double, and a bright vineous-red.

purpurea Eleyi — Eley Crab 16-18 ft.

A very showy and handsome hybrid with reddish purple foliage, the best of the purple-leaved Crabs. The flowers are a brilliant bright red followed by dark purple fruits.

robusta — Cherry Crab 20-25 ft.

A handsome tree of strong upright growth. Flowers large, very fragrant, soft pink to white. One of the earliest of the Crabs to bloom.

robusta persicifolia — Peach-leaved Cherry Crab 20-25 ft.

Similar to the type, but with long peach-like leaves.

scheideckeri — Scheidecker Crab 12-15 ft.

A rather small uprightly branched tree with a tendency to grow in bush form when not trimmed regularly. Flowers semi-double to double, borne very freely in upright clusters, red in bud, opening deep pink. A very decorative variety.

seiboldi calocarpa (M. zumi calocarpa) — Toringo Crab 15 ft.

A wide-spreading shrubby Crab with large dark-pink flowers followed by small scarlet fruits. A very floriferous and attractive variety.

theifera — Tea Crab 15-16 ft.

One of the best and most interesting of the Flowering Crabs. Flowers light pink. Very free-flowering, resembling in its flowering habit a Cherry rather than a Crab.

zumi — Zumi Crab 12-14 ft.

A shrubby tree with a dense upright habit of growth. Flowers large, pale pink in bud, opening white.

Maple — see *Acer*.

Mountain Ash — see *Sorbus aucuparia*.

Mulberry — see *Morus*.

Oak — see *Quercus*.

PLATANUS occidentalis — American Sycamore 80-90 ft.

A very large native shade tree with light green exfoliating bark. Per 10 Per 100

1 3/4 to 2 inch caliper	13.00	120.00
2 to 2 1/2 inch caliper	16.50	150.00
2 1/2 to 3 inch caliper	20.00	185.00

Plum — see *Prunus*.

Poplar — see *Populus*.

POPULUS nigra italica — Lombardy Poplar 50-60 ft.

A fine lot of trees in all grades, of heavy caliper and well branched to the ground.

	Per 10	Per 100	Per 1000
5 to 6 feet	\$ 1.75	\$ 13.00	\$

1 3/4 to 2 inch caliper	4.25	37.50	

DECIDUOUS TREES — CONTINUED

		Per 10	Per 100
POPULUS alba bolleana — Bolleana Poplar	50-60 ft.		
A narrow-columnar form of the White Poplar with green bark and silvery foliage. Probably the best of the fastigiate Poplars.			
5 to 6 feet, own root	4.00	35.00	
6 to 8 feet, own root	5.00	45.00	
8 to 10 feet, 1 to 1 1/4 inch caliper, own root	7.50	65.00	
PRUNUS bliriana — Purple-leaved Plum	12-15 ft.		
Foliage very dark purple; blooms very early with small pink fragrant flowers.			
5 to 6 feet	5.00		
6 to 8 feet	6.50		
cistina — Hansen's Purple-leaved Plum	5-6 ft.		
A very hardy variety of comparatively dwarf growth with very showy rich purplish-red foliage.			
3 to 4 feet	3.50	30.00	
4 to 5 feet	4.50	40.00	
Newport — Purple-leaved Plum	14-16 ft.		
Bright reddish-purple foliage which holds its color well throughout the season. One of the hardiest and brightest colored of the purple-leaved Plums.			
2 to 3 feet	2.60	22.50	
3 to 4 feet	3.25	27.50	
4 to 5 feet	3.75	32.50	
5 to 6 feet	4.25	37.50	
6 to 8 feet	5.00	45.00	
triloba — Double-flowering Plum	7-8 ft.		
A handsome, vigorous, and very hardy large shrub or small tree, producing a wealth of large double-pink flowers before the leaves in the Spring. The plants we offer here are budded on Native Plum. For plants on their own roots see under Shrubs on page 20.			
2 to 3 feet, on Plum	2.30	20.00	
3 to 4 feet, on Plum	2.75	24.00

4 to 5 feet	7.50		
5 to 6 feet	11.00		
6 to 8 feet	15.00		
8 to 10 feet	20.00		
Red-bud — see <i>Cercis canadensis</i> on page 7.			
SALIX discolor — Pussy Willow	15-20 ft.		
A selected type of the native Pussy Willow with large gray catkins. A good variety for cutting.			
18 to 24 inches	1.10	8.00	
2 to 3 feet	1.50	12.00	
3 to 4 feet	1.80	15.00	
4 to 5 feet	2.30	20.00	

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

DECIDUOUS TREES — CONTINUED

SALIX blanda — Wisconsin Weeping Willow 40-50 ft.

This is the hardiest of the Weeping Willows and for that reason, we believe, the best for planting in this section of the country. Well headed trees with strong straight stems.

	Per 10	Per 100
3 to 4 feet	1.75	14.00
4 to 5 feet	2.10	18.00
5 to 6 feet	3.00	25.00
6 to 8 feet	4.00	35.00

Walnut — see *Juglans*.

Willow — see *Salix*.

DECIDUOUS SHRUBS

The Shrubs that we are offering are young, thrifty, and well grown, and have been given plenty of room in the row to develop into well-shaped bushy plants. Graded according to the Standard Grades of the American Association of Nurserymen. Figures following the name of the plant indicate average ultimate height under reasonably good growing conditions in this section of the country.

ACANTHOPanax (Aralia) pentaphyllum — Five-leaved Aralia 6-7 ft.

A fine massing shrub of medium height with shiny dark green foliage that does not show dust. Grows well in poor and gravelly soil.

		Per 10	Per 100
18 to 24 inches		\$ 1.50	\$ 12.00
2 to 3 feet		1.80	15.00
3 to 4 feet		2.30	20.00
4 to 5 feet		2.80	25.00

ALMOND — Pink Flowering (Prunus glandulosa rosea) 5 ft.

Heavy well branched plants. We are growing all of our Almonds on their own roots. Such plants are much more compact and better in shape than those grown on Plum roots.

18 to 24 inches, own root		2.10	18.00
2 to 3 feet, own root	(\$220.00 per 1000)	2.70	24.00
3 to 3½ feet, own root		3.20	28.00
3½ to 4 feet, own root		4.00	35.00

Dwarf Russian Almond (Prunus nana) 3 ft.

A very hardy and quite dwarf Flowering Almond with rosy-red flowers early in the Spring. Not as free-flowering as the above.

18 to 24 inches		2.10	18.00
2 to 3 feet		2.50	22.00
3 to 3½ feet		3.00	26.00

ALTHAEA or Rose of Sharon (Hibiscus syriacus) 10-12 ft.

Bush Form, 2 to 3 feet		1.70	14.00
Bush Form, 3 to 4 feet		2.10	18.00
Tree Form, 3 to 4 feet		2.50	22.00

Anemonaeflorus — double, rose-pink.

Jeanne d'Arc — double, white.

Lucy — the best double red.

Rubis — single, red.

Snowdrift — a very fine single white.

Coelestis — bush form, 18 to 24 inches		2.70	24.00
Coelestis — bush form, 2 to 3 feet		3.30	30.00

Best of all of the Althaeas, with flowers of a beautiful china-blue, blooming continuously from mid-summer until late fall. Plants rather dwarf.

Aralia pentaphylla — see Acanthopanax pentaphyllum.

ARONIA arbutifolia — Red Chokeberry 8 ft.

The most handsome of the Aroniias, with lustrous dark green leaves that turn scarlet in the Fall, and bright red berries.

18 to 24 inches		1.50	12.00
2 to 3 feet		2.10	18.00
3 to 4 feet		2.70	24.00
4 to 4½ feet		3.20	28.00

melanocarpa (nigra) — Black Chokeberry 6 ft.

18 to 24 inches		1.70	14.00
2 to 3 feet		2.10	18.00

Barberry — see Berberis.

Beauty-bush — see Kolkwitzia.

BERBERIS thunbergii — Japanese Barberry 4 ft.

12 to 15 inches, 2 year	(\$ 40.00 per 1000)	.70	5.00
15 to 18 inches, 2 year	(\$ 55.00 per 1000)	.90	6.50
18 to 24 inches, 3 year	(\$ 70.00 per 1000)	1.10	8.50
24 to 30 inches, 3 year heavy	(\$110.00 per 1000)	1.60	13.00
30 to 36 inches, 3 year heavy	(\$145.00 per 1000)	2.00	17.00

DECIDUOUS SHRUBS — CONTINUED

BERBERIS thunbergii atropurpurea — Red-leaved Japanese Barberry 3-4 ft.

The true bright red type, grown from cuttings. The plants should be set in full sun to retain their best color.

	Per 10	Per 100
12 to 15 inches	1.10	8.00
15 to 18 inches	1.50	12.00
18 to 24 inches	2.00	17.00
24 to 30 inches	2.50	22.00
30 to 36 inches	3.25	28.00

BUDDLEIA — Ile de France 3-4 ft.

One of the best of the Buddleias for outdoor planting. Very free-flowering, in spikes often a foot long; the flowers a very rich dark claret-purple.

2 year No. 1	1.80	15.00
--------------------	------	-------

CALYCANTHUS floridus — Sweetshrub 5-6 ft.

Heavy well branched plants grown from hardy northern seed.

18 to 24 inches	1.50	12.00
2 to 3 feet	1.90	16.00
3 to 4 feet	2.50	22.00

CARAGANA arborescens — Siberian Pea-tree 10-12 ft.

18 to 24 inches	1.00	7.00
2 to 3 feet	1.40	11.00
3 to 4 feet	2.00	16.00
4 to 5 feet	2.60	22.50

CHIONANTHUS virginica — White Fringe-tree 18-20 ft.

A very effective tall massing shrub, with large glossy leaves.

Covered in the Spring with long racemes of feathery white flowers.

18 to 24 inches	2.80	25.00
2 to 3 feet	3.50	

Chokeberry — see Aronia.

CLETHRA alnifolia — Sweet Pepper-bush or Summer-sweet 3-4 ft.

18 to 24 inches	3.00	
-----------------------	------	--

Coralberry — see Symphoricarpos vulgaris.

CORNUS alba siberica — Coral Dogwood 8-10 ft.

A very vigorous tall shrub with bright red bark in the Winter.
Best of the red-branched Dogwoods.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.80	15.00

alternifolia — Pagoda Dogwood 12-15 ft.

A very ornamental large shrub with an unusual form of growth,
the branches being arranged in flat horizontal whorles.

3 to 4 feet	2.50	22.00
4 to 5 feet	2.80	25.00
5 to 6 feet	3.75	32.50

mas — Cornelian Cherry 15-20 ft.

One of the best of the taller massing shrubs, with very deep green
and shining foliage. Yellow flowers in the Spring before the leaves
followed by large red edible fruits in the Fall.

18 to 24 inches	1.80	15.00
2 to 3 feet	2.50	22.00

paniculata — Gray Dogwood 11-12 ft.

A small native massing shrub with upright gray branches. Cover-
ed with white berries in the Fall.

18 to 24 inches	1.50	12.00
2 to 3 feet	1.80	15.00
3 to 4 feet.....	(\$150.00 per 1000)	2.00
4 to 5 feet.....	(\$170.00 per 1000)	2.50

stolonifera — Red-osier Dogwood 8-10 ft.

Dark red branches, white fruit.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.40	11.00
3 to 4 feet	1.75	14.00
4 to 5 feet	2.10	17.00

DECIDUOUS SHRUBS — CONTINUED

CORNUS stolonifera flaviramea — Golden-twigs Dogwood 8-10 ft.

A type of <i>Cornus stolonifera</i> with yellow branches, giving a striking Winter effect	Per 10	Per 100
18 to 24 inches	1.20	9.00
2 to 3 feet	1.60	12.50
3 to 4 feet	1.90	15.00

CORYLUS americana — American Hazelnut 8-10 ft.

18 to 24 inches	2.00	17.00
2 to 3 feet	2.50	22.00
3 to 4 feet	3.30	30.00

COTONEASTER acutifolia — Peking Cotoneaster 10-12 ft.

A fine massing and hedging shrub with dark green leaves that turn bright red in the Fall. Black fruit.

2 to 3 feet	2.30	20.00
3 to 4 feet	2.80	25.00

divaricata — Spreading Cotoneaster 6 ft.

Arching branches and attractive foliage make this a very attractive massing shrub. Covered with red berries in the Fall.

18 to 24 inches	3.00	27.00
2 to 3 feet	4.00	36.00

Cranberry, Highbush — see *Viburnum americanum* and *Viburnum opulus*.

CYDONIA japonica — Japanese Flowering Quince 5-6 ft.

15 to 18 inches	1.25	10.00
18 to 24 inches	1.60	12.50
2 to 3 feet	2.10	18.00

DEUTZIA lemoinei — Lemoine's Deutzia 5 ft.

A handsome and free-flowering semi-dwarf shrub, one of the hardiest of the Deutzias.

15 to 18 inches	1.60	13.00
18 to 24 inches	2.00	17.00
2 to 2½ feet	2.50	22.00

scabra crenata plena — Double Rose Deutzia 10-12 ft.

Large double rose-pink flowers in June.

2 to 3 feet	1.60	13.00
3 to 4 feet	1.90	16.00
4 to 5 feet	2.30	20.00

scabra Pride of Rochester — Large-flowered Deutzia 10-12 ft.

A strong grower and a free bloomer; large and long-lasting double white to pale pink flowers in late May.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.80	15.00
4 to 5 feet	2.10	18.00

Dogwood — see *Cornus*.

ELAEAGNUS angustifolia — Russian Olive 15-20 ft.

A tall massing or screening shrub with attractive gray-green foliage. Very hardy. Often used for hedges and windbreaks.

18 to 24 inches	1.00	7.00
2 to 3 feet	1.30	10.00
3 to 4 feet	1.80	15.00
5 to 6 feet	3.00	25.00
6 to 8 feet	4.00	35.00
8 to 10 feet	5.50	50.00

Elder — see *Sambucus*.

EUONYMUS americanus — Brook Euonymus 6-8 ft.

An attractive upright shrub with large and very showy pink fruits.

3 to 4 feet	2.30	20.00
4 to 5 feet	3.00	25.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

EUONYMUS *alatus* — Winged Euonymus or Burning-bush 8 ft.

Best of the hardy types of Euonymus. A compact slow-growing bush form with corky winged bark. Foliage turns brilliant red with the first frosts.

	Per 10	Per 100
15 to 18 inches	2.80	25.00
18 to 24 inches	3.75	32.50
2 to 3 feet	5.00	45.00

bungeanus — Winterberry Euonymus 15 ft.

A large shrub or small tree with a loose graceful habit. Bright pink fruits that hang on the tree long after the leaves have fallen.

5 to 6 feet	3.50	30.00
-------------	------	-------

atropurpureus — Wahoo 10-12 ft.

A vigorous hardy native shrub or small tree producing a wealth of decorative scarlet berries in the Fall. Brilliant red autumn foliage.

18 to 24 inches	1.70	14.00
2 to 3 feet	2.10	18.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.50	30.00

europaeus — European Burning-bush 12-14 ft.

A large shrub or small tree, heaviest fruiting of all the Euonymus. Brilliant autumn foliage.

2 to 3 feet	1.80	15.00
3 to 4 feet	2.10	18.00
4 to 5 feet	2.75	24.00
5 to 6 feet	3.25	28.00

yeddoensis — Yeddo Euonymus 8 ft.

A broad-headed shrub with good foliage and attractive pink fruit. In type of growth it is much like *Euonymus alatus* and makes a very satisfactory massing shrub.

2 to 3 feet	2.20	18.00
3 to 4 feet	2.60	22.50
4 to 5 feet	3.25	27.50

FORSYTHIA *fortunei* — Fortune's Forsythia 8-10 ft.

Upright shrub with arching branches. Yellow flowers early in April.

2 to 3 feet	(\$100.00 per 1000)	1.50	12.00
3 to 4 feet	(\$120.00 per 1000)	1.70	14.00
4 to 5 feet	(\$150.00 per 1000)	2.10	17.50

intermedia — Border Forsythia 8-10 ft.

A vigorous and free-flowering shrub with arching branches, hardiest of the Forsythias.

2 to 3 feet	(\$100.00 per 1000)	1.50	12.00
3 to 4 feet	(\$120.00 per 1000)	1.70	15.00
4 to 5 feet	(\$150.00 per 1000)	2.10	18.00

Dwarf Forsythia 2-3 ft.

A very attractive new dwarf shrub forming a broad compact somewhat spreading plant.

12 to 15 inches	1.60	13.00
15 to 18 inches	2.00	17.00
18 to 24 inches	2.75	22.50

intermedia spectabilis — Showy Border Forsythia 8-10 ft.

An improved form of *Forsythia intermedia* with larger showier flowers.

2 to 3 feet	1.60	13.00
3 to 4 feet	1.90	16.00
4 to 5 feet	2.30	20.00

suspensa — Weeping Forsythia 6-8 ft.

Shrub with long vine-like pendulous branches, excellent for massing and bank plantings.

2 to 3 feet	1.75	14.00
3 to 4 feet	2.00	16.00
4 to 5 feet	2.40	20.00

Fringe-tree, White—See *Chionanthus virginica*.

Fringe, Purple — see *Rhus cotinus*.

DECIDUOUS SHRUBS — CONTINUED

HAMAMELIS virginica — Witchhazel 10-12 ft.

A large native shrub which grows particularly well in semi-shady places. Bright yellow flowers in the Fall after the leaves have fallen.

	Per 10	Per 100
18 to 24 inches	2.10	18.00
2 to 3 feet	2.70	24.00
3 to 4 feet	3.50	

Hazelnut — see *Corylus americana*.

Hibiscus — see *Althaea*.

Honeysuckle — see *Lonicera*.

HYDRANGEA arborescens grandiflora — Hills of Snow 5-6 ft.

Large, snowball-like heads of white flowers in June and July. Prefers moist and partly shady places.

18 to 24 inches	1.90	16.00
2 to 3 feet	2.30	20.00

paniculata grandiflora — Pee Gee Hydrangea 8-10 ft.

Large panicle heads of showy white flowers in August, which fade thru pink to brown and remain on the plants until frost. The true large-flowered type.

12 to 18 inches	1.30	10.00
18 to 24 inches	1.70	14.00
2 to 3 feet	2.10	18.00
3 to 3½ feet	2.90	25.00

ILEX verticillata — Winterberry or Black Alder 6-8 ft.

A hardy slow-growing shrub of the Holly family with bright red berries that last well into the Winter. Prefers moist locations.

18 to 24 inches	2.30	
2 to 3 feet	2.80	25.00
3 to 4 feet	3.60	32.00

Kerria, White — see *Rhodotypos*.

KOLKWITZIA amabilis — Beauty Bush 6-8 ft.

A large shrub with slender graceful arching branches and pink weigela-like flowers early in June.

15 to 18 inches	2.00	17.00
18 to 24 inches	2.50	22.00
2 to 3 feet	3.50	30.00
3 to 4 feet	4.50	

LIGustrum amurense — Amoor River North Privet

Northern grown transplanted heavily branched stock that was all cut back to the ground last Spring.

12 to 18 inches, 3 canes and up	(\$30.00 per 1000)	.60	4.00
12 to 18 inches, 8 canes and up	(\$42.50 per 1000)	.70	5.00
18 to 24 inches, 4 canes and up	(\$42.50 per 1000)	.70	5.00
18 to 24 inches, 8 canes and up	(\$55.00 per 1000)	.90	6.50
2 to 3 feet, 4 canes and up	(\$60.00 per 1000)	1.00	7.00
2 to 3 feet, 8 canes and up		1.20	9.00

ibota regalianum — Regal's Prostrate Privet

The true low-growing spreading type, grown from cuttings.

15 to 18 inches	1.40	11.00
18 to 24 inches	1.70	14.00
24 to 30 inches	2.00	17.00
30 to 36 inches	2.60	22.50

Lilac — see *Syringa*.

LONICERA bella rosea — Pink Belle Honeysuckle 7-8 ft.

A spreading upright grower of medium height. Bright pink flowers and red fruits.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

grandiflora rosea — Bride Honeysuckle 10-12 ft.

One of the best of the many upright bush Honeysuckles. Bright pink flowers and red fruits.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

DECIDUOUS SHRUBS — CONTINUED

LONICERA morrowi — Morrow's Honeysuckle 8-9 ft.

One of the best of the bush Honeysuckles for massing. An upright shrub with a horizontal spreading habit of branching. Yellow and white flowers.

	Per 10	Per 100
18 to 24 inches	1.20	9.00
2 to 3 feet	1.60	13.00
3 to 4 feet	2.00	17.00

syringantha wolfi — Wolf Honeysuckle 4-5 ft.

A little known tho very attractive Honeysuckle, with twiggy spreading or drooping branches and narrow blue-green leaves. The tubular pinkish-lilac blooms, borne chiefly in May but scatteringly throughout the Summer, are very fragrant.

18 to 24 inches	2.10	18.00
2 to 3 feet	2.60	22.50
3 to 3½ feet	3.25	27.50

tatarica rosea — Pink Tatarian Honeysuckle 10-12 ft.

A very hardy and vigorous grower, best known of the bush Honeysuckles. Bright pink flowers and red fruits.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00
4 to 5 feet	2.30	20.00

tatarica siberica — Red Tatarian Honeysuckle 8-10 ft.

The most upright in growth of all of the Honeysuckles, but a slower grower than the Pink Tatarian. The bloom is a deep rosy-pink.

18 to 24 inches	1.20	9.00
2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00

MAHONIA aquilifolium — Oregon Hollygrape 3-4 ft.

A handsome shrub with dark green shining leaves that turn purplish in the Fall. Very showy and attractive bluish-black fruits in the Summer. Evergreen further south, but sheds its leaves in this latitude.

12 to 15 inches, B&B	7.50
15 to 18 inches, B&B	10.00
18 to 24 inches, B&B	15.00

Mock-orange — see *Philadelphus*.

Moss-locust — see *Robina hispida*.

Ninebark — see *Physocarpus*.

Pea-tree — see *Caragana*.

PHILADELPHUS Banniere 6-7 ft.

One of the very best of the hybrid Mock-oranges; a fine free-flowering plant of medium height. The flowers are large, often being three inches across, and show the same doubling effect as in *Philadelphus virginalis*. The bloom is semi-double, creamy-white, and is borne very profusely, almost covering the plant. Produces a good bushy plant.

2 to 3 feet	3.00
3 to 4 feet	4.00

PHILADELPHUS coronarius — Sweet Mock-orange 10 ft.

The large-flowered type of the old-fashioned sweet-scented Mock-orange.

2 to 3 feet	1.40	11.00
3 to 4 feet	1.70	14.00
4 to 5 feet	2.10	18.00
5 to 6 feet	3.00	25.00

Enchanteresse

A very attractive and large-flowered double Mockorange.

3 to 4 feet	3.00
-------------	------

Norma 7-8 ft.

A fine upright growing hybrid with long clusters of large glossy-white single to semi-double flowers.

3 to 4 feet	2.20	18.00
4 to 5 feet	2.75	22.50

DECIDUOUS SHRUBS — CONTINUED

PHILADELPHUS *virginalis* — Virgin Mock-orange 7-8 ft.

The most popular of all of the hybrid Mock-oranges. A rather open grower of medium height. The flowers are very large, semi-double to double, pure white, and very fragrant. Blooms very freely in the Spring and sparingly all thru the Summer.

	Per 10	Per 100
12 to 18 inches	1.40	11.00
18 to 24 inches	2.00	17.00
2 to 3 feet	2.70	24.00
3 to 4 feet	3.30	30.00

PHYSOCARPOS *opulifolius* — Common Ninebark 8-10 ft.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00
4 to 5 feet	2.30	20.00

opulifolius aureus — Golden Spirea 8-10 ft.

2 to 3 feet	1.50	12.00
3 to 4 feet	1.90	16.00
4 to 5 feet	2.30	20.00

opulifolius nanus — Dwarf Ninebark 4-5 ft.

A very neat small shrub, closely resembling the parent, but smaller in every way. The leaves are small, closely resembling those of *Ribes alpinum*.

15 to 18 inches	1.50	12.00
18 to 24 inches	1.90	16.00
2 to 2½ feet	2.30	20.00

Plum, Double-flowering — see *Prunus triloba*.

Privet — see *Ligustrum* on page 19.

PRUNUS *glandulosa rosea* — see Almond, Pink Flowering

nana — see Almond, Dwarf Russian.

Purple-leaved — see under Deciduous Trees on page 12.

triloba — Double-flowering Plum 7-8 ft.

A handsome, vigorous, and very hardy large shrub producing a wealth of large double pink flowers before the leaves in the Spring. We offer plants both on their own roots and budded on native Plum understocks.

2 to 3 feet, on Plum	2.30	20.00
3 to 4 feet, on Plum	2.75	24.00
4 to 5 feet, on Plum	3.85	32.50
5 to 6 feet, on Plum	4.50	
18 to 24 inches, own root	2.30	20.00
2 to 3 feet, own root	2.75	24.00
3 to 4 feet, own root	3.20	28.00
4 to 5 feet, own root	4.00	35.00

Quince, Japanese Flowering — see *Cydonia japonica*.

Red-bud — see *Cercis canadensis* on page 7.

RHODOTYPOS *kerrioides* — Jetbead or White Kerria 4-5 ft.

18 to 24 inches	1.60	12.50
2 to 3 feet	2.30	20.00

RHUS *canadensis* (*Rhus aromatica*) — Fragrant Sumac 4-5 ft.

A fine low massing shrub with dark green aromatic foliage that turns orange and scarlet in the Fall.

18 to 24 inches	1.80	15.00
2 to 3 feet	2.30	20.00
3 to 4 feet	2.75	24.00
4 to 5 feet	3.75	32.50

cotinus — Purple Fringe 10-15 ft.

A large shrub of rapid growth, fine for specimen and large mass plantings. The plant is covered in the Fall with large panicles of very fine smoky-purple flowers.

18 to 24 inches	2.50	22.00
2 to 3 feet	3.60	32.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

DECIDUOUS SHRUBS — CONTINUED

RHUS typhina laciniata — Fern-leaved or Shredded Sumac 10 ft.

One of the most handsome of the taller Sumacs, with very finely cut foliage that turns yellow and scarlet in the Fall.		Per 10	Per 100
18 to 24 inches		1.20	9.00
2 to 3 feet	(\$110.00 per 1000)	1.60	13.00
3 to 4 feet		2.00	17.00

ROBINIA hispida — Rose Acacia or Moss Locust 6 ft.

A shrub Locust with very attractive foliage, bearing a profusion of rosy pink flowers in May. Grafted to prevent suckering.		1.70	14.00
18 to 24 inches		2.10	18.00
2 to 3 feet		2.75	24.00
3 to 4 feet			

kelseyi — Kelsey's Rose-flowered Locust 6 ft.

A very graceful and handsome shrub, probably the best of the shrub-form flowering locusts; better in form of growth and showier in flower than Robinia hispida. Flowers large, purplish rose.		2.10	18.00
18 to 24 inches		2.60	22.50
2 to 3 feet		3.50	30.00
3 to 4 feet			

ROSA lucida (Rosa virginiana) — Virginia Rose 5-6 ft.

2 to 3 feet		1.60	13.00
3 to 4 feet		1.90	16.00

setigera — Prairie Rose 4-6 ft.

One of the most attractive of the native massing Roses with long arching branches and attractive large single pink flowers.		1.60	13.00
2 year No. 1, 2 to 3 feet		2.00	16.00
3 year No. 1, 3 to 4 feet			

Russian Olive — see Elaeagnus angustifolia.

SAMBUCUS canadensis acutiloba — Cut-leaved Elder 8-10 ft.

3 to 4 feet		1.60	12.50
4 to 5 feet		1.90	16.00

nigra aurea — Golden-leaved Elder 10 ft.

The foliage is a bright golden yellow which holds its depth of color throughout the season if planted in full sun.		1.80	15.00
3 to 4 feet		2.30	20.00
4 to 5 feet		2.80	25.00

Snowball — see Viburnum opulus sterile.

Snowberry — see Symphoricarpos.

SORBARIA sorbifolia — Ash-leaved Spirea or Ural False Spirea

2 to 3 feet		1.50	12.00
3 to 4 feet		1.80	15.00

SPIRAEA Anthony Waterer — 3-4 ft.

A well known dwarf shrub with numerous heads of bright red flowers thru the Summer.		1.60	13.00
15 to 18 inches		2.10	18.00
18 to 24 inches		2.30	20.00
30 to 36 inches		2.75	24.00

callosa alba (S. japonica) — Japanese White Spirea 2-3 ft.

Similar to Spiraea Anthony Waterer but with yellow green foliage and white flowers.		1.75	14.00
18 to 24 inches		2.00	17.00

arguta — Snowgarland 5-6 ft.

An upright hardy shrub with narrow light green foliage, which produces a wealth of small white flowers before the leaves in the Spring. Similar to, but more vigorous in growth than Spiraea thunbergii.		1.50	12.00
2 to 3 feet	(\$100.00 per 1000)	1.50	12.00
3 to 4 feet	(\$120.00 per 1000)	1.80	15.00
4 to 5 feet		2.40	20.00

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

DECIDUOUS SHRUBS — CONTINUED

SPIRAEA froebeli — Frobel Spirea 4-ft.

Similar in type of growth to Spiraea Anthony Waterer but a slightly taller and hardier plant. Flowers deep rose-red. Foliage turns brilliant red in the Fall.

		Per 10	Per 100
18 to 24 inches	(\$ 90.00 per 1000)	1.40	11.00
24 to 30 inches	(\$120.00 per 1000)	1.70	14.00
30 to 36 inches	(\$145.00 per 1000)	2.00	17.00

thunbergii — Thunberg's Garland Spirea 3-4 ft.

Dwarf shrub with slender spreading branches and feathery light green foliage. Covered with a wealth of small white flowers before the leaves in the Spring.

18 to 24 inches		1.40	11.00
2 to 2½ feet	(\$120.00 per 1000)	1.70	14.00
2½ to 3 feet	(\$140.00 per 1000)	2.00	17.00
3 to 3½ feet		2.50	21.00

trichocarpa — Korean Spirea 5 ft.

One of the newer Spiraeas, quite similar to Spiraea Van Houttei in growth and type of bloom. The blooms, however, are larger and showier and appear about two weeks later.

2 to 3 feet		1.50	12.00
3 to 4 feet		1.80	15.00

Van Houttei — commonly known as Bridalwreath 6-7 ft.

One of the most graceful and most easily grown of all massing shrubs; small white flowers in clusters cover the plants in the early Spring.

18 to 24 inches		.80	5.50
2 to 3 feet	(\$ 70.00 per 1000)	1.10	8.00
3 to 4 feet	(\$100.00 per 1000)	1.60	13.00
4 to 5 feet		1.90	16.00

Sumac — see Rhus.

SYMPHORICARPOS chenaultii — Spotted Snowberry 4-5 ft.

The best and most handsome of the Snowberries. A new hybrid with small leaves and white fruit spotted with pink.

18 to 24 inches	(\$ 65.00 per 1000)	1.10	8.00
2 to 3 feet	(\$ 85.00 per 1000)	1.40	11.00
3 to 4 feet	(\$110.00 per 1000)	1.60	13.00

racemosus — White Snowberry 4-5 ft.

2 to 3 feet		1.50	12.00
3 to 4 feet		1.90	

vulgaris — Red Snowberry or Coralberry 4-5 ft.

A low spreading shrub that does well in shaded places. One of the best that we have for holding steep banks.

18 to 24 inches	(\$ 65.00 per 1000)	1.10	8.00
2 to 3 feet	(\$ 85.00 per 1000)	1.40	11.00
3 to 4 feet	(\$110.00 per 1000)	1.60	13.00

SYRINGA japonica — Japanese Tree Lilac 18-20 ft.

A very large shrub, attaining the proportions of a small tree. Large panicles of creamy white flowers in July long after the bloom of all other Lilacs is gone.

18 to 24 inches		2.30	20.00
2 to 3 feet		2.80	25.00
3 to 4 feet		3.50	30.00

persica (rothomagensis) — Persian Lilac 8-10 ft.

An upright vigorous grower, the most free-flowering of all of the Lilacs. Flowers deep purplish red in very large heads. This variety should properly be called Chinese Lilac. (Syringa rothomagensis), as the true Persian Lilac is a small weak grower with pale lilac flowers and is practically unknown in the nursery trade.

18 to 24 inches		1.80	15.00

FRENCH LILACS

For a number of years we have been specializing in the growing of French Lilacs and are propagating from a long list of varieties covering a wide range of color and form, a list that contains the better and more popular of the older varieties as well as many of the newer and finer types.

OWN-ROOT Plants:—The Lilacs which we offer here are own-root plants. Our French Lilacs are propagated by grafting on small pieces of Privet root, not by budding on Privet or Common Lilac. The grafts are then planted deep, both in the bed and when transplanted to the nursery row. When grown in this manner the Privet acts as a nurse root for the Lilac scion until such time as the Lilac can develop its own root system. When that is accomplished, it soon overgrows the Privet and the Privet dies off—in fact on some varieties we are even able to remove the Privet root when transplanting from the beds into the field.

Own-root plants have the marked advantage over budded plants in that they are perfectly hardy and therefore much longer lived, and that all of the sprouts from the roots will be true to variety. Many nurserymen propagate French Lilacs by budding above the ground on California Privet, or, tho much less frequently, on Common Lilac stocks. Plants budded on Privet are almost invariably short lived unless the plant is set low enough in the ground when transplanted so that the Lilac can develop its own roots, a type of planting seldom accomplished with developed plants even by persons who understand the necessity for deep planting. If planted at the normal depth the plants are not root-hardy, as the tender Privet is apt to kill off during severe winters. Plants left too long on Privet roots are apt to develop a "graft blight" resulting from insufficient union with and overgrowth of the root stock by the scion. Buds on Common Lilac, on the other hand, are root-hardy and make a good union, but the root stocks invariably sprout. Such sprouts, being hard to distinguish from the budded variety and also usually being of stronger growth, often drown out the buds.

In order to facilitate pricing, we have divided the Lilacs which we are offering into five price groups.

We can furnish small quantities of some varieties and sizes not included in the following quantity lists.

For additional varieties of French Lilacs and Descriptive List and Color Classification see pages 25, 26, and 27.

SYRINGA HYACINTHIFLORA HYBRIDS

A comparatively new group of Lilac Hybrids, resulting from a cross between *Syringa vulgaris* and *Syringa oblata* or, more frequently, its variety, *Syringa oblata* Giraldii. The group is characterized by its rapid growth and very early blooming period, blooming about ten days to two weeks ahead of the Common Lilacs. The individual flowers are large and sweet-scented and the flower clusters are also very large, often a foot long.

FRENCH LILACS - DESCRIPTIVE LIST

Alphonse Lavalle — flowers double, of medium size, clear lavender-violet, deeper within than without. Clusters large, shapely, and compact. A splendid variety.

Buffon—single, very attractive mauve-pink flowers with reflexed lobes.

Charles Joly — flowers double, quite large, very dark violet-purple with silvery reflex; clusters open, of medium size. An old variety, but still one of the best all-around double dark reds.

Charles X — an old free-flowering favorite. Flowers single, of medium size, reddish-violet; compact clusters of medium size. One of the most free-flowering of all of the French Lilacs.

Claude Bernard—long panicles of double or semi-double bright mauve lilac flowers.

Congo — single flowers in large open clusters. An old and very popular variety, very deep reddish purple without, lighter within the corolla.

De Croncels — single flowers of medium size in open pyramidal clusters; a fine bright red in bud expanding to lilac-red.

De Mirabel — flowers single, large, very dark bluish-violet; clusters large. An outstanding bloom and one of our darkest Lilacs, but the plant is slow-growing and rather dwarf.

Descartes — large panicles of single mauve pink flowers, extra floriferous. The color comes nearer to a clear pink than that of any other *Hyacinthiflora* variety.

Desfontaines — flowers large, double, violet-blue; in very large open clusters. A conspicuous variety of excellent growth characteristics and a good clear color.

Diderot — flowers single, extra large, very deep red; in long, large clusters. A very fine bloom and an outstanding example of the modern showy Lilac, but, like many of the darker Lilacs, is a slow dwarf grower.

Edouard Andre — double flowers of medium size in open much-branched clusters; clear rose, or nearly pink. One of the best of the pink Lilacs.

Emile Lemoine — double well-formed flowers of medium size in large open clusters. As near an approach to pure pink as is usually found in Lilacs.

Frau Bertha Dammann — single white flowers of medium size in unusually large open clusters.

Frau Wilhelm Pfizer — large single flowers in long open clusters; pale bluish-violet. A strong thrifty plant and an excellent variety.

Gen. Sherman — large many-shouldered upright clusters of single flowers which are of varying shades of porcelain lavender.

Hugo Koster — single, bluish-violet to light reddish-purple, flowers and clusters both very large. One of the best of the single Lilacs, distinct and attractive.

Jan Van Tol — single, very fragrant, pure white. A dwarf stocky grower with enormous individual flowers in very large symmetrical clusters. An outstanding variety, particularly in the size of the flowers.

Jean Mace — large double flowers in large and very compact clusters; bluish-mauve. A fine variety with an unusually good thrifty habit of growth, one of the most free-flowering of the French Lilacs.

Jeanne d'Arc — large double white flowers in long open clusters. A very fine and showy variety. Plant rather dwarf and a late bloomer.

Katherine Havemeyer — flowers large, double, in large compact clusters; cobalt blue flushed mauve. A splendid variety both in flower and growth characteristics, destined to be one of the most popular of the "blue" lilacs.

La Tour d'Auvergne — flowers large, double, and star-shaped, in open narrow clusters of variable size; dark red in bud opening dark purplish violet.

Leon Gambetta — double, lilac-rose; both the individual flowers and the trusses are very large. An outstanding variety, though one of the hardest to grow.

Lamartine—one of the earliest to bloom; single, extremely large trusses of beautiful pale pink flowers.

La Mauve — double; pale lilac-pink flowers in long narrow clusters.

Louvois—extremely large clusters of large single flowers; deep violet-purple with bluish shades.

Ludwig Spaeth — flowers single, large, in large well-filled clusters; very deep maroon-red. Very free-blooming, and of strong thrifty growth. A very popular variety and without question the best all-around single dark lilac.

Mme. Casimir Perier — large double creamy white flowers in large well-filled clusters. A very satisfactory double white that may be depended upon to bloom freely each year.

Mme. Lemoine — flowers large, double, pure white; clusters narrow, medium to large. One of the most satisfactory and popular of the double whites, and a very dependable bloomer.

Mme. Leon Simon — flowers large, double, in fine large open clusters; lilac-pink. Strong narrow upright grower.

Marechal Lannes — flowers semi-double to double, exceptionally large; in large, full, erect clusters; bluish-violet. A choice and very showy variety.

Marie LeGraye — flowers large, single, creamy white; clusters of medium size. A strong, erect and very profuse bloomer.

Maurice Barres — flowers single, very large, pale azure lilac; large open clusters. A very handsome and showy variety.

FRENCH LILACS— DESCRIPTIVE LIST CONTINUED

Miss Ellen Willmott — flowers large, double to very double, creamy white; in very large and and long panicles. A strong grower and very free bloomer, generally rated as the best of the double white Lilacs.

Michael Buchner — flowers double, medium to large, pinkish-lilac; long narrow clusters. One of the best known and most popular varieties.

Mont Blanc — flowers white, single, very large; in long well-filled clusters. A very showy and beautiful variety that we consider the best of the single white Lilacs.

Montaigne — flowers very large and double; in long narrow clusters; mauve pink. A fine variety of strong growth.

Pascal—very free-flowering; single, a fine light mauve-pink.

Paul Therion — large double flowers in very large and showy well-filled clusters; rosylavendar tinged claret, much resembling large double violets. A very fine and showy variety.

Pres. Carnot — flowers large, double, light lilac blue; in long narrow clusters. A free-blooming strong-growing variety of very good color.

Pres. Faillieres — large pale lavender flowers in very large clusters. An outstanding variety with good growth characteristics and showy flowers.

Pres. Grevy — flowers large, semi-double to double, in large pyramidal clusters; a clear soft delicate blue. An old variety that is still one of the best of its color.

Pres. Lincoln — flowers single, medium in size, in long open narrow-pyramidal clusters; wedge-wood blue, an unusual color in lilacs and probably the nearest to a true blue.

Reamur — flowers single, very large, violet-carmine and satiny-rose; in long well-filled clusters. A very choice dark Lilac, but a slow and rather poor grower.

Rhum von Horstenstein — flowers very large, single, in long narrow trusses; an even dark reddish purple. A very promising free-blooming new variety.

Renoncule (Ranunculata) — flowers fragrant, double, of medium size, in narrow compact clusters; a pleasing even blue. Free flowering and a strong grower.

Vauban—flowers double, sometimes semi-double, light lilac-pink tho much darker in bud.

Ville de Limoges — single flowers of medium size in well-filled pyramidal clusters; mauve-pink. One of the most fragrant of all Lilacs.

Waldeck Rousseau — double flowers of medium size, in large, long, many-branched clusters; deep violet, darker within than without. A very pleasing variety.

William Robinson — flowers double, large, in large open irregular clusters; deep red in bud expanding to light crimson.

CLASSIFICATION TO COLOR:—As it is almost impossible to describe colors of flowers, particularly in a long list of similar varieties, so as to really give a good idea of color tones, we have divided the Lilacs on our list into seven general color groups so as to aid in color classification. It should also be remembered that there is a decided difference in the form of the individual Lilac flowers, as well as in the shape and size of the trusses or clusters. Also that there is often a decided difference in the growth characteristics of the different varieties.

White Varieties

Single Varieties — Frau Bertha Dammann, Jan Van Tol, Marie LeGraye, Mont Blanc.

Double Varieties — Edith Cavell, Jeanne d'Arc, Mme. Casimir Perier, Mme. Lemoine, Miss Ellen Willmott.

Pink Shades

Single Varieties — Buffon, Descartes, Lamartine, Ville de Limoges.

Double Varieties — Emile Lemoine, Edouard Andre, La Mauve, Leon Gambetta, Mme. Leon Simon.

Red Shades

Single Varieties — Congo, DeCroncels, Diderot, Ludwig Spaeth, Reamur, Rhum von Horstenstein.

Double Varieties — Adelaide Dunbar, Charles Joly, La Tour d'Auvergne, Mrs. Edward Harding, Paul Therion, William Robinson.

Blue Shades

Single Varieties — Pres. Lincoln.

Double Varieties — Desfontaines, Jean Mace, Katherine Havemeyer, Pres. Carnot, Pres. Grevy, Renoncule.

Light Lilac Shades

Single Varieties — Gen. Sherman, Maurice Barres.

Double Varieties — Frau Wilhelm Pfitzer, Pres. Faillieres, Vauban.

Dark Lilac Shades

Single Varieties — Charles X, Hugo Koster, Pascal.

Double Varieties — Claude Bernard, Michael Buchner, Montaigne.

Violet Shades

Single Varieties — De Mirabel, Louvois.

Double Varieties — Alphonse Lavalle, Marechal Lannes, Waldeck Rousseau.

DECIDUOUS SHRUBS — CONTINUED

SYRINGA *japonica* and *Syringa persica* — see page 23.*villosa* — Late Lilac or Pink Lilac 8-10 ft.

	A bushy, compact shrub of rapid growth, producing a profusion of rosy-pink flowers in June after the Common Lilacs are gone.	Per 10	Per 100
3 to 4 feet		2.30	20.00
4 to 5 feet		2.80	25.00

vulgaris — Common Purple Lilac 12-15 ft.

18 to 24 inches		1.40	11.00
2 to 3 feet		1.70	14.00
3 to 4 feet		2.00	17.00
4 to 5 feet		3.00	26.00

vulgaris alba — Common White Lilac 12-15 ft.

18 to 24 inches		1.80	15.00
2 to 3 feet		2.30	20.00

TAMARIX *hispida* — Kashgar Tamarix 12-15 ft.

The best hardy Tamarix. Slow-growing, compact and upright, with feathery silvery-green foliage and long panicles of bright pink bloom over a long season in early summer.

18 to 24 inches		1.10	8.00
2 to 3 feet		1.50	12.00
3 to 4 feet		1.80	15.00
4 to 5 feet		2.10	18.00

VIBURNUM *americanum* — American Cranberrybush 8-10 ft.

Very similar to the European High-bush Cranberry, but a more handsome plant. Profusion of orange-scarlet berries in the Fall.

18 to 24 inches		2.30	20.00
2 to 3 feet		2.80	24.00
3 to 4 feet		3.20	28.00
4 to 5 feet		4.00	35.00

dentatum — Arrow-wood 8-10 ft.

An upright shrub of dense growth, very good for massing where a medium to tall shrub can be used. Does well on north sides and in partial shade.

2 to 3 feet		1.90	16.00
3 to 4 feet		2.30	20.00
4 to 5 feet		2.80	25.00

lantana — Wayfaring Tree—10-12 ft.

A handsome large shrub of upright growth with soft thick foliage that turns scarlet in the Fall. Attractive flowers and fruits.

18 to 24 inches		1.60	13.00
2 to 3 feet		2.00	17.00
3 to 4 feet		2.50	22.00
4 to 5 feet		3.50	30.00

lentago — Nannyberry 15-18 ft.

A tall upright massing shrub with dark green leaves that turn scarlet in the Fall. Large blue-black fruit.

18 to 24 inches		2.10	18.00
2 to 3 feet		2.90	25.00
3 to 4 feet		3.50	30.00
4 to 4½ feet		4.00	35.00

opulus — European High-bush Cranberry 10 ft.

A well known tall hardy shrub, with large clusters of scarlet fruit in the Fall that remain on the plant until late in the Winter.

18 to 24 inches		2.10	18.00
2 to 3 feet		2.50	22.00
3 to 4 feet		3.25	27.50
4 to 5 feet		4.00	35.00

opulus sterile — Common Snowball 10 ft.

The well-known old-fashioned Snowball.

18 to 24 inches		2.10	18.00
2 to 3 feet		2.50	22.00
3 to 3½ feet		3.20	27.50

DECIDUOUS SHRUBS — CONTINUED

WEIGELA Eva Rathke — Red-flowered Weigela 4-5 ft.

Brilliant crimson flowers, a very profuse bloomer.

	Per 10	Per 100
2 to 3 feet	2.50	
3 to 4 feet	3.00	

floribunda rubra — Crimson Weigela 6-8 ft.

A stronger and more desirable grower than Weigela Eva Rathke, but does not bloom as profusely. Dark crimson flowers.

18 to 24 inches	1.60	13.00
2 to 3 feet	2.00	17.00
3 to 4 feet	3.00	27.00

rosea — Pink Weigela 7-8 ft.

Best known of all of the Weigelas, with very showy pink flowers in late May.

18 to 24 inches	1.10	9.00
2 to 3 feet	1.60	12.50
3 to 4 feet	2.00	17.00

Witch-hazel — see Hamamelis.

CLIMBING VINES

AMPELOPSIS engelmanni — Engelmann Creeper

A lighter growing type of the well-known Virginia Creeper with sucker-discs that permit it to climb on stone and brick; very hardy.

2 year No. 1	(\$60.00 per 1000)	1.10	8.00
2 year medium	(\$50.00 per 1000)	.75	6.00

quinquefolia — Virginia Creeper

2 year No. 1	(\$60.00 per 1000)	1.10	8.00
2 year medium	(\$50.00 per 1000)	.75	6.00

veitchii (Ampelopsis tricuspidata) — Boston Ivy

The best known and most popular of the stone climbers; attractive foliage that turns brilliant crimson in the Fall.

3 year No. 1	2.10	18.00
2 year No. 1	1.80	15.00
2 year medium	1.50	12.00

CELASTRUS orbiculatus — Japanese Bittersweet

More vigorous in growth than the Native Bittersweet and fruits more profusely, but the berries are much smaller. Blue-green foliage and showy orange-red fruits.

2 year Extra Heavy	1.50	13.00
2 year No. 1	1.30	10.00

scandens — Native Bittersweet

Yellow-green foliage and very showy large orange-red fruits.

2 year Extra Heavy	1.80	15.00
2 year No. 1	1.50	12.00
2 year medium	1.20	9.00

CLEMATIS — Large-flowering Hybrids

2 year No. 1, dormant	4.00	35.00
-----------------------------	------	-------

Henryii — single, pure white.

Jackmanni — rich purple

Mme. Edouard Andre — carmine violet

paniculata — Sweet Autumn Clematis

2 year No. 1	1.75	14.00
--------------------	------	-------

VITIS aestivalis — Summer Grape

3 year No. 1	1.25	10.00
2 year No. 1	1.00	7.50

WISTARIA chinensis — Purple Chinese Wistaria

We offer the Wistarias both as seeding plants and as plants grafted from blooming wood of good flowering plants. There is quite a little difference in the blooming ability of different Wistaria plants, and the grafted plants are by far the best to plant where bloom is desired.

Seedlings, 2 year No. 1	1.30	10.00
Grafted from blooming wood, 2 year No. 1	2.50	22.00

sinensis alba — White Chinese Wistaria		
Grafted from blooming wood, 2 year No. 1	2.80	25.00

EVERGREENS

Prices quoted are for specimen plants that have been regularly transplanted and carefully grown and sheared, suitable for the best landscape work. Unless otherwise instructed, we dig all of our Evergreens B&B. We always dig fresh for each order.

Where customers wish to make special selection of Evergreens and mark trees in the nursery, we will be glad to reserve such trees for them, but an additional charge depending on value, usually 10%, will be made. Where such selections are not for immediate shipment, a deposit of 25% of the order will be required to guarantee acceptance.

JUNIPERUS chinensis Keteleeri — Keteleer 15-18 ft.

A splendid type of formal pyramidal outline, compact in growth and very bushy. The leaves are scale-like and very dark green in color. Formerly classified as a variety of *Juniperus virginiana*, but now considered as a variety of *Juniperus chinensis*.

	Each	Per 10	Per 100
2½ to 3 feet, B&B	\$ 2.10	\$ 19.00	\$175.00
3 to 3½ feet, B&B	2.65	24.00	225.00
3½ to 4 feet, B&B	3.00	28.00	265.00
4½ to 5 feet, B&B	4.00	37.50	
5 to 6 feet, B&B	4.50	42.50	
6 to 7 feet, B&B	5.00	47.50	

chinensis mas (mascula) 18-20 ft.

An especially attractive form of *Juniperus chinensis*, forming a broad densely conical tree with slender needle-like gray-green leaves and staminate flowers.

2½ to 3 feet, B&B	2.10	19.00	175.00
3 to 3½ feet, B&B	2.65	24.00	225.00
3½ to 4 feet, B&B	3.00	27.50	
4 to 5 feet, B&B	3.75	35.00	
5 to 6 feet, B&B	4.50	42.50	

chinesis pfitzeriana — Pfitzer Juniper

The best of the low-growing Junipers. It is perfectly hardy, thrives in almost any location, transplants easily, and is easily the most popular Evergreen of its type. A wide-spreading or broadly pyramidal plant with dark green foliage that has a distinct grayish cast.

12 to 15 inch spread, B&B	1.15	10.00	
15 to 18 inch spread, B&B	1.55	14.00	125.00
18 to 24 inch spread, B&B	2.10	19.00	175.00
24 to 30 inch spread, B&B	2.65	24.50	225.00
30 to 36 inch spread, B&B	3.50	32.50	300.00

chinensis pyramidalis glauca — Blue Chinese Column

A tall columnar Juniper of rapid growth which will maintain its narrow compact shape with but little shearing. A very valuable plant for landscape plantings, as it grows very well in hot dry locations and is also immune to severe cold. The blue form has an attractive glaucous blue foliage.

2½ to 3 feet, B&B	2.10	19.00	175.00
3 to 3½ feet, B&B	2.75	25.50	240.00
3½ to 4 feet, B&B	3.25	30.00	
4 to 4½ feet, B&B	3.75	35.00	
4½ to 5 feet, B&B	4.25	40.00	
5 to 5½ feet, B&B	5.00	47.50	

chinensis sargentii — Sargent Juniper

A prostrate form with creeping stems and ascending branches, forming a close dense mat.

15 to 18 inch spread, B&B	1.50	13.50	
18 to 24 inch spread, B&B	1.90	17.50	
24 to 30 inch spread, B&B	2.25	21.00	

communis hibernica — Irish Juniper 10-12 ft.

A very narrow columnar tree with upright branches, giving a very formal effect. We have an exceptionally fine block this year. All of the trees have been grown single stem.

18 to 24 inches, B&B	1.00	8.50	70.00
2 to 2½ feet, B&B	1.20	10.50	90.00
2½ to 3 feet, B&B	1.45	12.50	110.00
3 to 3½ feet, B&B	1.70	15.00	135.00

EVERGREENS — CONTINUED

JUNIPERUS communis depressa plumosa — Andorra Juniper

A low-spreading and very hardy Juniper of rapid growth, seldom reaching a height of more than 15 to 18 inches, but making a considerable spread. The foliage is unusually attractive in both form and color.

	Each	Per 10	Per 100
15 to 18 inch spread, B&B	1.25	11.00	95.00
18 to 24 inch spread, B&B	1.50	13.50	120.00
24 to 30 inch spread, B&B	1.75	15.50	140.00
30 to 36 inch spread, B&B	2.00	18.00	160.00
36 to 42 inch spread, B&B	2.50	22.50	

excelsa stricta — Spiny Greek Juniper 4-5 ft.

A slow-growing Evergreen with gray-green foliage that forms a compact well-shaped pyramid. Especially useful in formal plantings.

12 to 15 inches, B&B	1.00	9.00	
15 to 18 inches, B&B	1.40	12.50	110.00
18 to 24 inches, B&B	1.65	15.00	135.00
2 to 2½ feet, B&B	1.90	17.50	160.00

horizontalis Douglasi — Waukegan Juniper

A trailing Juniper with long branches that make it a very satisfactory ground cover. Steely-blue foliage that turns an attractive purple in the Winter.

18 to 24 inch spread, B&B	1.25	11.00	100.00
24 to 30 inch spread, B&B	1.55	14.00	125.00
30 to 36 inch spread, B&B	1.80	16.50	150.00
4 to 5 foot spread, B&B	3.00	25.00	

horizontalis glauca — Blue Creeping Juniper

Similar to the Waukegan Juniper, but more compact in growth; bluish green foliage.

18 to 24 inch spread, B&B	1.15	10.00	
24 to 30 inch spread, B&B	1.50	13.50	120.00
30 to 36 inch spread, B&B	1.90	16.50	150.00
36 to 42 inch spread, B&B	2.20	20.00	
42 to 48 inch spread, B&B	2.50	22.50	

sabina — Savin Juniper 3-4 ft.

A very good dwarf form with dark green foliage and spreading ascending branches, forming an irregular vase-shaped bush.

15 to 18 inch spread, B&B	1.40	12.50	110.00
18 to 24 inch spread, B&B	1.65	15.00	135.00
24 to 30 inch spread, B&B	2.00	18.50	170.00

sabina tamariscifolia — Tamarix Savin 1½-2 ft.

A low spreading form, very compact in growth, with soft textured silvery green foliage.

15 to 18 inch spread, B&B	1.75	16.00	
18 to 24 inch spread, B&B	2.10	19.00	175.00
scopulorum Chandleri — Chandler's Silver Juniper			20-25 ft.

scopulorum Chandleri — Chandler's Silver Juniper

A selected form of the Colorado Juniper with frosty silvery-green whip-cord foliage of a striking color. An upright conical tree, the tips of the branches drooping.

2 to 2½ feet, B&B	1.75	16.00	145.00
2½ to 3 feet, B&B	2.20	20.00	180.00
3 to 3½ feet, B&B	2.60	24.00	225.00
3½ to 4 feet, B&B	3.00	27.50	260.00
4 to 4½ feet, B&B	3.50	32.50	

squamata Meyeri — Meyer Juniper 3-4 ft.

A dwarf tree of irregular upright growth and numerous short straight branches. The leaves are broad, plump, and a bright bluish green in color. A very handsome plant on account of its dense growth and foliage color.

12 to 15 inches, B&B	1.15	10.00	
15 to 18 inches, B&B	1.60	14.50	130.00
18 to 24 inches, B&B	1.90	17.50	
24 to 30 inches, B&B	2.25		

EVERGREENS — CONTINUED

JUNIPERUS virginiana — Red Cedar 30-35 ft.

Platte River type. This is a very nice lot of seedlings that have been regularly sheared and are of excellent pyramidal form.

	Each	Per 10	Per 100
18 to 24 inches, B&B	1.00	9.00	80.00
2 to 2½ feet, B&B	1.30	11.50	100.00
2½ to 3 feet, B&B	1.50	13.50	120.00
3 to 3½ feet, B&B	1.80	16.50	150.00
3½ to 4 feet, B&B	2.10	19.00	175.00
4 to 5 feet, B&B	2.75	25.00	

virginiana burki — Burke's Juniper 10-12 ft.

A dense narrow-columnar form of *Juniperus virginiana* with bright silvery blue foliage. The foliage is not quite as blue as that of *Juniperus virginiana glauca*, but the plant is a much better grower, being more erect and pyramidal.

2½ to 3 feet, B&B	2.50	22.50	
3 to 3½ feet, B&B	3.00	27.50	250.00
3½ to 4 feet, B&B	3.50	32.50	300.00
4 to 4½ feet, B&B	4.00	37.50	

virginiana cannarti — Cannart Red Cedar 12-15 ft.

Probably the best of the many forms of *Juniperus virginiana*. A dense-growing symmetrical pyramid with heavy dark rich green foliage.

2½ to 3 feet, B&B	2.50	23.00	
3 to 3½ feet, B&B	3.25	30.00	
3½ to 4 feet, B&B	3.75	35.00	335.00
4 to 4½ feet, B&B	4.35	41.00	385.00
4½ to 5 feet, B&B	4.75	45.00	
5 to 6 feet, B&B	5.50	52.50	

virginiana elegantissima — Goldtip Red Cedar 12-15 ft.

Often called Lee's Golden Juniper. A striking plant with bronze-green foliage, accented by the golden-yellow tips of the branches. Naturally a low spreading grower, but if staked when young develops a dense broadly pyramidal tree.

2 to 2½ feet, B&B, staked	2.00	17.50	
2½ to 3 feet, B&B, staked	2.50	22.50	
3 to 3½ feet, B&B, staked	3.00		

virginiana glauca — Silver Red Cedar 15-18 ft.

A narrow columnar tree. The young growth is silvery blue, changing to a beautiful bluish-green as the foliage matures.

2 to 2½ feet, B&B	1.90	17.50	
2½ to 3 feet, B&B	2.50	22.50	200.00
3 to 3½ feet, B&B	3.00	27.50	250.00
3½ to 4 feet, B&B	3.50	32.50	
4 to 4½ feet, B&B	4.00	37.50	

virginiana keteleeri — Keteleer Red Cedar 15-18 ft.

The formerly considered as a type of *Juniperus virginiana*, this variety is now classified under *Juniperus chinensis*, which see.

virginiana schottii — Schott Red Cedar 12-15 ft.

A compact pyramidal form, very similar to the Cannart Red Cedar, but with lighter yellowish-green foliage and ascending branches.

2½ to 3 feet, B&B	2.00	18.50	
3 to 3½ feet, B&B	2.75	25.00	225.00
3½ to 4 feet, B&B	3.25	30.00	275.00
4 to 4½ feet, B&B	3.75	35.00	325.00
4½ to 5 feet, B&B	4.25	40.00	375.00
5 to 6 feet, B&B	4.75	45.00	
6 to 7 feet, B&B	5.50	52.50	

EVERGREENS — CONTINUED

JUNIPERUS virginiana pyramidiformia hilli — Dundee Juniper 12-15 ft.

An upright compact symmetrical pyramid with rich green foliage that turns to an attractive plum-green during the winter.

	Each	Per 10	Per 100
18 to 24 inches, B&B	1.10	10.00	90.00
2 to 2½ feet, B&B	1.80	16.50	150.00
2½ to 3 feet, B&B	2.40	21.50	200.00
3 to 3½ feet, B&B	3.00	27.50	250.00

PICEA canadensis albertiana — Black Hills Spruce 50-60 ft.

One of the best and most popular of the Spruces. A compact symmetrical upright grower, the slowest growing and most compact of all of the tall Spruces. Also the most hardy of the Spruces, withstanding both heat and drought as well as cold better than most other varieties.

18 to 24 inches, B&B	1.60	13.50	120.00
2 to 2½ feet, B&B	1.85	16.50	150.00
2½ to 3 feet, B&B	2.10	19.00	175.00
3 to 3½ feet, B&B	2.65	24.00	220.00
3½ to 4 feet, B&B	3.00	27.50	250.00

excelsa — Norway Spruce 80-90 ft.

The best known of all of the Spruces; a symmetrical well formed pyramid with graceful drooping branches. One of the best evergreen trees for screen or windbreak plantings. We have a very good block of trees that have been regularly sheared.

18 to 24 inches, B&B	1.00	8.50	75.00
2 to 2½ feet, B&B	1.15	10.00	90.00
2½ to 3 feet, B&B	1.40	12.50	110.00
3 to 4 feet, B&B	1.90	17.50	

PINUS montana mughus — Mugho Pine or Dwarf Mountain Pine

The true dwarf type; many-stemmed, bushy and compact.

12 to 15 inch spread, B&B	1.55	14.00	125.00
15 to 18 inch spread, B&B	1.95	17.50	160.00
18 to 24 inch spread, B&B	2.50	22.50	

nigra — Austrian Pine 60-70 ft.

A handsome tree of broadly pyramidal growth, best of the ornamental Pines for this area. Deep rich green foliage.

18 to 24 inches, B&B	1.10	10.00	90.00
2½ to 3 feet, B&B	1.65	15.00	

TAXUS cuspidata — Japanese Yew

While comparatively new as far as planting in the Central West is concerned, the Japanese Yew has already established itself as one of our most valuable evergreens. It is one of the few evergreens that really does well in shaded places, and yet it does equally well in the sun. It can stand very heavy pruning, so is a valuable hedge plant. It is a variable plant of many forms. The foliage is always a clean dark lustrous green.

cuspidata — Spreading Japanese Yew 10-12 ft.

A spreading bush with horizontal somewhat ascending branches. Very hardy and does well in shaded places, especially good for foundation plantings.

30 to 36 inch spread, B&B	4.75	45.00
36 to 42 inch spread, B&B	6.00	

cuspidata capitata — Upright Japanese Yew 25-30 ft.

The upright form of the Japanese Yew, a broad conical tree with upright branches.

2 to 2½ feet, B&B	3.25	30.00
2½ to 3 feet, B&B	3.75	35.00
3 to 3½ feet, B&B	4.50	42.50
3½ to 4 feet, B&B	5.75	55.00

EVERGREENS — CONTINUED

TAXUS cuspidata intermedia — Intermediate Yew

A compact grower, similar in form to *Taxus cuspidata*, with deep green waxy foliage. One of the best of the spreading types.

		Each	Per 10	Per 100
18 to 24 inch spread, B&B	3.50	32.50	
24 to 30 inch spread, B&B	4.25		

cuspidata nana (brevifolia) — Dwarf Japanese Yew 4-5 ft.

A low slow-growing shrub-form Yew with wide-spreading branches, quite dense in its growth. Foliage very dark green.

18 to 24 inches, B&B, heavy	3.75	35.00	
-----------------------------	-------	------	-------	--

media Hicksii — Hick's Yew 15-18 ft.

A very attractive form with numerous ascending branches and rich dark glossy green foliage. Usually grown as a narrow columnar tree for accent purposes.

18 to 24 inches, B&B, narrow	2.15	20.00	
2 to 2½ feet, B&B, narrow	3.00	27.50	

media Hunewelliana — Hunewell Yew

We believe that this is one of the most promising of the newer types of Yews for this section of the country. It is a very rapid compact grower with attractive dark green foliage that does not change color in the winter. It is much more rapid in growth than any other Yew that we have had here at Princeton and has distinct possibilities as a hedge plant.

18 to 24 inch spread, B&B	3.50	32.50	
24 to 30 inch spread, B&B	4.00	37.50	

THUYA occidentalis — American Arborvitae 20-30 ft.

A very good compact dark green type.

8 to 10 feet, B&B, heavy	6.00	55.00	
10 to 12 feet, B&B, heavy	8.00	75.00	

occidentalis pyramidalis — Pyramidal Arborvitae 15-20 ft.

The most popular of the Arborvitae types, with deep green foliage that holds its color well thru the Winter. A narrow columnar pyramid, splendid for accents in formal plantings.

18 to 24 inches, B&B	1.15	10.00	85.00
2 to 2½ feet, B&B	1.40	12.50	110.00
2½ to 3 feet, B&B	1.60	14.50	130.00
3 to 3½ feet, B&B	1.80	16.50	150.00

occidentalis warreana — Siberian Arborvitae 12-15 ft.

The hardest of the Arborvitae types. Slow-growing, compact, conical, with a deep green foliage that does not turn color in the Winter.

2½ to 3 feet, B&B	1.75	16.00	
3 to 3½ feet, B&B	2.00	18.50	

TSUGA canadensis — Canadian Hemlock 75-90 ft.

One of the most graceful and adaptable of the larger growing Evergreens. Ordinarily growing as an upright conical informal tree, it adapts itself easily to trimming as a hedge. Does well in partial shade.

2½ to 3 feet, B&B	3.00	27.50	
3 to 3½ feet, B&B	3.50	32.50	
3½ to 4 feet, B&B	4.00	37.50	
4 to 5 feet, B&B	4.50	42.50	

PEONIES

FOR A FULL LIST of the Peonies which we have to offer for shipment this Fall, and for more complete descriptions of the varieties listed here, please see our Preliminary Fall Wholesale Price List which was issued August 20, 1941, copy of which will be sent on request. In that List we offer almost 50 varieties not included in this list and also give much more complete descriptions of all varieties.

Peonies have been a specialty with us for many years and we are offering a very extensive list of varieties that has been very carefully culled of undesirable types, so that all of the varieties offered have some especial merit. The list includes many of the newer and better varieties as well as a comprehensive list of varieties of medium price, in a full range of color, form, and blooming season.

Descriptions in a list of this type are necessarily limited and where fuller descriptions are required they will be sent on request. All varieties are understood to be what is technically known as "double type" unless otherwise specified.

Figures following the name of the variety show ratings according to the latest classification of the American Peony Society.

GRADE:—All of the plants offered are strong divisions of two and three year old plants carrying from 3 to 5 eyes; well rooted, well balanced, and well developed plants.

SPECIAL APPLICATION OF PRICES:—5 plants of a variety will be furnished at the rate per 10, 30 or more at the rate per 100. The rate per 100 will also apply on orders for named varieties totaling 100 plants or more when such orders call for not less than ten plants of a variety. Less than five plants of a variety will be furnished at 5c per plant over the rate per 10, except for varieties listing at \$10.00 or more per 10, where the rate per 10 will apply on all quantities.

Write for special prices on large quantities.

CUT-FLOWER VARIETIES:—Many varieties of Peonies, even some of those carrying the highest ratings, have certain peculiarities of growth and flower which make them entirely unsuited for growing for commercial cut flowers. The best varieties for cut flowers must be reliable and prolific bloomers with long strong upright stems, good foliage, and firm petals of good substance. They must open well when cut in bud and must handle well in shipment and in storage. We are listing below a number of varieties that have proven their value as commercial producers of cut flowers, the varieties in black face type being those that we particularly recommend.

Adolphe Rousseau	Floral Treasure	Martha Bulloch
Avalanche	James Kelway	Mary Brand
Baroness Schroeder	Karl Rosenfeld	Mons. Jules Elie
Duchess de Nemours	Livingstone	Octavie Demay
Edulis Superba	Mme. de Verneville	Reine Hortense (Pres. Taft)
Felix Crousse	Mme. Emile Galle	Richard Carvel
Festiva Maxima	Mme. Jules Dessert	Sarah Bernhardt

EARLY WHITE PEONIES

		Per 10	Per 100
Duchess de Nemours (8.1)	—Sulfur-white changing to pure white; blooms freely and develops exceptionally well, a very satisfactory commercial cut-flower variety	\$ 1.30	\$ 10.00
Festiva Maxima (9.3)	—Pure white with crimson flecks on the center petals; a splendid large variety that for years has been the most popular of all white Peonies	1.70	14.00
Laura Dessert (8.8)	—Free blooming, anemoneae type, lemon yellow, often considered a better yellow than Primevere which it closely resembles	5.00	
Le Cygne (9.42)	—A large and finely formed flower, white tinged ivory fading pure white. Highly rated and very popular	15.00	
Mme. de Verneville (7.9)	—Blush white changing to pure white, center flecked crimson; free flowering and dependable; a well known cut-flower variety (\$80.00 per 1000)	1.20	9.00

All orders are booked subject to our regular Terms and Conditions of Sale as printed on pages 2 and 3. These should be carefully noted as we cannot vary from them.

EARLY WHITE PEONIES — CONTINUED

	Per 10	Per 100
Queen Victoria (7.2)—Milk-white, very early and a very profuse bloomer. The blooms keep well in storage, making it a highly satisfactory cut-flower. (\$80.00 per 1000)	1.20	9.00

MID-SEASON WHITE PEONIES

Avalanche (Albatre) (8.7)—A fine strong-growing and very popular white. Very large and double, creamy white	1.60	13.00
James Kelway (8.7)—Opening very pale pink, becoming pure white. A very attractive loose fluffy flower of great size	1.80	15.00
Jubilee (8.9)—Flesh-white. An enormous lacy and rather flat flower of great beauty, but inclined to be weak stemmed	2.40	20.00
Kelway's Glorious (9.56)—Immense shaggy and rather flat creamy-white flowers. The highest rated of all Peonies	7.50	
La Tenderesse (8.1)—Pond-lily type. Large, free-flowering and fragrant; milk white with creamy yellow center	1.30	10.00
Mme. Jules Dessert (9.4)—Exquisite flowers of large size; creamy white tinged with buff and salmon. One of the very best	3.00	25.00
Mrs. Edward Harding (9.3)—Pure white, a very handsome flower of perfect form and delicate lacy quality	3.00	25.00
Nymphaea (8.8)—A fine pond-lily type, creamy white	1.80	15.00
Primevere (8.6)—Anemonae type. Creamy white guard petals with center petals of canary yellow; the most dependable and desirable of the so-called yellow varieties	2.40	20.00
W. F. Christman (8.8)—Blush white shaded pink, especially the outer petals; very free-flowering and of excellent form	1.80	15.00

LATE WHITE PEONIES

Alsace-Lorraine (8.8)—Pale waxy white tinted cream and buff. Very free-flowering. Of fine form and unusual color	1.80	15.00
Couronne d'Or (Crown of Gold) (8.1)—Full, evenly rounded bloom; snow white showing yellow stamens at center; a very dependable late white of good habit	1.30	10.00
Elizabeth Barrett Browning (9.2)—An extra fine bloom, white tinted pale yellow. Very late. Very large and quite fragrant, but inclined to be weak stemmed	3.50	30.00
Enchanteresse (8.9)—White with yellow tints, immense creped petals, very late. Sometimes opens poorly, but when well grown is one of the finest whites	2.50	20.00
Marie Lemoine (8.5)—Very large and compact globular bloom; pure white with a trace of yellow; a very handsome variety.....	1.70	14.00
Solange (9.27)—An outstanding variety of fine form and unusual coloring; creamy white suffused buff and pale salmon pink. One of the most popular of all Peonies	4.00	35.00

EARLY PINK PEONIES

Edulis Superba (7.6)—Clear deep bright-rose-pink, a remarkably free bloomer. It's extreme earliness, deep color, and ability to hold up well make it a very desirable cut-flower variety. (\$80.00 per 1000)	1.20	9.00
Floral Treasure (Delicatissima) (7.5)—A clear even pale-lilac-rose; very free flowering; one of the best of the early commercial cut-flower varieties. (\$80.00 per 1000)	1.20	9.00
Octavie Demay (8.5)—Very dependable and attractive; large flat blooms of soft old-rose-pink	1.50	12.00
Philomele (7.7)—Anemonae type. A tri-colored Peony. The guard petals are bright violet-rose, the collar is amber yellow, and the wide-spreading crown is rose	1.50	12.00

MID-SEASON PINK PEONIES

	Per 10	Per 100
Asa Gray (8.1)—Shell pink thickly dotted with minute crimson specks. An unusual flat-topped form. Fragrant	1.30	10.00
Georgiana Shaylor (8.9)—Very large, light rose-pink with crimson markings; a very highly regarded variety, both for garden and cut flowers	1.80	15.00
Germain Bigot (8.5)—Light rose-pink; a very dependable variety for general utility purposes	1.80	15.00
Ginnette (8.6)—A rather dwarf plant of good habit. Flowers large, pale pink with old-rose shadings, fragrant	1.80	15.00
James R. Mann (8.7)—An attractive large loose fluffy flower; dark rose-pink streaked carmine	2.30	20.00
Lady Alexandra Duff (9.1)—Pond-lily type. An immense loosely built and very lovely flower; pale blush pink and very floriferous. An outstanding show flower	1.80	15.00
Lillian Gumm (8.9)—An even deep rose-pink with fine fragrance, one of the largest Peonies and a fine show flower	3.00	25.00
Mabel L. Franklin (9.0)—Clear brilliant rose-pink shaded salmon, a very handsome Peony with a fine clear color	2.30	20.00
Marguerite Gerard (8.4)—Pale flesh-pink with a deeper rose-pink collar. Popular for its large size and free blooming habit	1.20	9.00
Marie Crousse (8.9)—A fine variety of noteworthy color and form; pale pink shaded rose; very free flowering	1.80	15.00
Marietta Sisson (9.2)—Large well formed blooms on tall stems, clear pink	5.00	
Mary W. Shaylor (9.0)—Dwarf; very floriferous; pale flesh pink with strong crimson blotches	2.30	20.00
Mme. Geissler (7.9)—Glossy old-rose-pink shading deeper at the base of the petals; very large but somewhat weak stemmed.....	1.20	9.00
Mons. Jules Elie (9.2)—Glossy lilac-pink; very floriferous; a tall strong grower with exceptionally large blooms. One of the most popular varieties and one of the best for cut flowers.....	2.20	18.00
Phyllis Kelway (9.0)—Semi-double; rose pink; a charming shaggy loosely built bloom that makes an unusually fine show flower	3.00	25.00
Souv. de Louis Bigot (9.1)—A fine large bloom; brilliant rose-pink of an usual shade, resembling that of Walter Faxon. Does not fade	3.00	25.00
Therese (9.54)—The flowers are very large and are produced very freely; pale translucent old-rose; of splendid form, texture, and color. The highest rated pink Peony and very fine	3.50	30.00
Tourangelle (9.4)—Pale apple-blossom-pink with deeper salmon shades toward the base of the petals; flowers very large. An attractive, richly colored, and very popular variety	1.80	15.00
Walter Faxon (9.3)—A very striking and luminous shell-pink; highly regarded for its delicate and very distinct color; one of the most popular pinks	4.00	35.00

LATE PINK PEONIES

Albert Crousse (8.6)—Light rose-pink shading salmon. Large and very full blooms of good form	1.60	13.00
Elwood Pleas (8.7)—Large flat flowers, pale rose-pink; an even colored flower about the same shade as Therese	1.50	12.00
Gigantea (8.2)—Large Flowers of delicate rose-pink; an old but attractive and popular variety	1.80	15.00
Grandiflora (Richardson's) (8.8)—Bright pink shaded old-rose immense flat flowers, one of the very latest to bloom.....	1.50	12.00
Henry Avery (8.8)—A large handsome bloom with sharply differentiated collar; guard and crown petals bright light pink, collar creamy white tinged yellow at the base	2.30	20.00

Prices quoted are for wholesale quantities. Orders calling for less than five of a variety and size are not wholesale, but will be filled at an advance over printed rates as outlined on page 2.

LATE PINK PEONIES — CONTINUED

	Per 10	Per 100
Jeannot (9.2)—A remarkably fine show bloom, very large and free flowering, a delicate shade of pale rose-pink	2.30	20.00
La France (9.0)—Enormous and rather flat perfectly formed flowers; fragrant; clear light pink	2.30	20.00
Livingstone (8.1)—Old-rose-pink with silvery reflex. Large and free-flowering, a very popular variety	1.50	12.00
Loveliness (8.8)—Pale flesh-pink. A fine late pink with high quality blooms and an excellent growth habit	1.80	15.00
Madelon (8.47)—Silvery pink flushed carmine. A large handsome compact flower of heavy substance	3.50	30.00
Martha Bulloch (9.1)—Very large cup-shaped blossoms of exceptional quality; bright old-rose-pink shading shell pink	4.50	
Maude L. Richardson (8.5)—Light rose-pink with an exceptionally pleasing fragrance, blooms very large	1.80	15.00
Milton Hill (9.0)—An outstanding variety with a particularly symmetrical flower. Luminous and very light shell pink	4.50	
Mlle. Leonie Callot (8.1)—A very lovely light flesh-pink flower of medium size, very floriferous	2.00	
Mme. Boulanger (7.9)—Soft glossy cameo-pink; a popular variety	1.20	9.00
Mme. Emile Galle (8.5)—Soft rose-pink shading deeper at the center. Prized for its delicate color and texture	1.20	9.00
Phoebe Cary (8.8)—Pale old-rose-pink shading darker at the center; tall grower; a very good flower of unusual color	2.30	20.00
Raoul Dessert (9.0)—Brilliant shell-pink of a shade very rare in Peonies; coloring much the same as in Walter Faxon	3.50	30.00
Rosa Bonheur (9.0)—Very large bloom, a fine old-rose-pink with red markings; a highly prized and very reliable variety	3.00	25.00

EARLY RED PEONIES

Cherry Hill (8.7)—A very popular and outstanding dark velvety red, one of the very earliest of the Chinese Peonies	4.00
Louis Joliet (9.0)—A fine free-blooming non-fading deep clear red; a strong grower and very desirable	8.50
Officinalis Rubra Plena (8.5)—The well known May-flowering Peony, earliest of all, blooming two weeks ahead of the Chinese varieties. Globular dark crimson blooms	2.20
Modeste Guerin (7.8)—Large and free-flowering; a light rose-red of the "American Beauty" shade, a very popular old variety.....	1.50
Philippe Riviere (9.2)—Symmetrical flowers on strong stems; very dark wine-red with blackish sheen. Perhaps the darkest red.....	10.00

MID-SEASON RED PEONIES

Auguste Dessert (8.7)—An unusual and vivid shade of light red with the petals edged silver. Big round petals symmetrically graduated toward a loose center. Very attractive	2.20	18.00
Delachei (7.1)—One of the best known of the older reds; deep dazzling red; a profuse bloomer	1.40	11.00
Felix Crousse (8.4)—Large globular blooms of deep ruby red; best and most profitable red for commercial cut-flowers and unquestionably the most generally popular of all red Peonies.....	1.70	14.00
Grace Ott (8.56)—A compact brilliant dark crimson flower. A free bloomer and very well liked where known	5.00	
Judge Dillon—Well formed, medium size, deep blood red	1.20	9.00
Karl Rosenfield (8.8)—Clear even bright crimson. A very reliable bloomer, rates with Felix Crousse as one of the most dependable reds	1.70	14.00

MID-SEASON RED PEONIES — CONTINUED

	Per 10	Per 100
Longfellow (9.0)—Bright cherry red; very popular because of its distinct and fadeless color and general dependability	3.50

	Per 10	Per 100
Dicentra <i>spectabilis</i> — Old fashioned Bleeding Heart	\$ 1.70	\$14.00
No. 1, 3 to 5 eyes	2.30	20.00
Heavy Clumps, 5 to 8 eyes		

PACHYSANDRA TERMINALIS

A low-growing evergreen ground-cover plant with dark-leaves which make a rich mat of foliage. Very useful in shady places and as a border plant for beds of Evergreens.

	Per 10	Per 100
Strong No. 1 plants	\$ 1.00	\$ 7.00

DELPHINUMS

	Per 10	Per 100
Wayside Giant Hybrids	1.30	12.00

Immense flowers closely set on strong straight stems in a wide range of colors including all shades and pastel combinations of blue, mauve, pink and lavender, with doubles much predominating. The stems are of good height, though not as tall as those of the Pacific or Wrexham strains. The plant is exceptionally sturdy and well adapted to the exacting conditions of the Central West.
